DESCRIPTION: Looking for an innovative, fun place to work? We are looking for a Registered Psychotherapist. We offer a workplace that values creativity, individual expression and fun while ensuring adherence to professional standards and evidence-based service delivery. Enjoy a model that includes lively individual and team supervision/consultation with staff, interesting casework, full administrative support, peer mentoring, a competitive pay range, and benefit plan. In addition, we are not far away or hard to access: 2 km off the 407 in the north end of the City of Oshawa.

Located on a 60-acre therapeutic farm with a full range of indoor and outdoor psychological treatment amenities, Dr. Angela Fountain & Associates is a large well-staffed psychology clinic that offers all the traditional family and child community-based clinic services and more. From our indoor consultation offices and play therapy rooms to our adjoining equine therapy stables, small animal handling facilities, play and swim areas, to adventures in our forest and farm meadows, practicing social work moves to a new level of wellness that more traditional settings cannot offer. Working in the clinic has few dull moments. The list of indoor/outdoor seasonal activities like pumpkin carving, maple syrup, carriage and hayrides, and summer day camp goes on. Not to be concerned if this is new therapeutic territory for you, we will provide training and support in our more unique equine and animal assisted therapies. Check out our website at www.drfountain.ca.

Dr. Fountain has a thriving group practice with a tight knit group of practitioners who enjoy peer supervision, mentoring and applied training. The candidate should expect to be evaluated in terms of their fit with the existing team and their ability to adjust and learn in a group setting of independent practitioners.
