our Staff

One key factor that allows camp to be a success is the spectacular staff. With our 4:1 client/staff ratio, our counsellors are able to build meaningful relationships with campers to ensure they receive the best out of the program. All our counsellors have, or are in the midst of earning, degrees related to working with children. We partner with Durham College, selecting second year Child and Youth Worker students, who are on their final placement before graduation. Many of our staff have been with us for a number of years, and children enjoy seeing their favourite counsellor year after year.

All Group Therapy will be provided or overseen by a Registered

Psychotherapist.

AboutThe Program

The program is best suited for children who have social emotional problems who can cope in a small group setting without ongoing one on one support. Children with anxiety, depression, ADHD, high functioning ASD, adjustment problems, learning disabilities, suffering grief and loss or major family stressors are accepted on the basis that they can cope in a 4 to 1 program staff ratio with extra support as needed but limited to assisting in maintaining campers functioning as a group. Dr. Angela Fountain and her Associate staff will be providing group treatment for all clients, and clinical supervision to the program staff. Parent orientation and follow up are also a part of the camp experience. This summer we will be including an animal and equine portion into our programming that will focus on developing relational skills and positive self-esteem. Campers have the opportunity to engage in animal handling, safety, daily life & care.

SWIMMING AT CAMP

Our camp program includes an opportunity for recreational swimming in our full sized pool on select days.

Program and Fees

Our day program will be delivered in two week cycles. Children will be screened and grouped carefully based on their capacity to get along and enjoy each others' company. Children who cannot join in safely due to behavioural problems will not be accepted into the program, but will be considered for alternative treatment programming upon special request and arrangement. Fees for extended after-hour and additional psychological services. treatment and/or assessment are separate and appraised on an individual basis, over and above standard program fees.

Life on the Farm: Signature Camp

This year we are bringing back our Signature Camp which is filled with all the favourite activities a child would experience living on a farm. From hanging out and playing with the farm animals and horses, to building forts and playing games in the woods, or learning a farm artisan craft. Campers will have a fun filled two weeks while building their coping skills, confidence and capacity to function in a group. Built into our Signature Camp is our social thinker's program where we build on "we" thinking and flexibility, self-regulation, personal safety and assertiveness. For children having graduated SK through to Grade 5, the life on the farm theme will be utilized to help support children in looking out for each other, teamwork and practical problem solving, and help them to further develop these essential skills for success.

This summer Dr. Angela Fountain and Associates is proud to offer a special Child and Youth Day Program for children who have graduated SK -Grade 5 (going into Grade 1-6) experiencing social-emotional problems and/or learning disabilities. Our program is specifically designed to be fun and enjoyable, while at the same time provide our young clients with the essentials for developing strong healthy relationships, confidence, and practical problem solving skills. Embedded in thematic weeks of fun and adventure, in a country setting, are opportunities for individualized and group skill building in the areas of social skills, anger/anxiety management, impulse control, sustained attention and learning skills.
