Enjoy a positive, group learning atmosphere while working agility courses with our miniature horses and learning the basic prerequisites to join future carriage driving classes. Whether your child has horse experience or not, this program will be a fun and interactive way to learn horse safety and how to command and work with a horse on the ground. It is designed to provide lots of hands-on experience working with a horse on lead lines and long reins using a variety of obstacles and activities on the ground. In addition, while learning these horse handling skills, your child will also be building their leadership skills, teamwork skills and much more!
